Forecast For Northeast England
Issued by Met Office Exeter
at 0400 on Saturday 25 Sep 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Humid, generally dry and cloudy. Some bright spells developing later.

Today:
Generally cloudy, humid and with a chance of occasional drizzle and hill fog. However, through the afternoon bright or sunny spells are likely to gradually develop east of the Pennines, leading to temperatures rising into the low twenties Celsius. Maximum temperature 22 deg C (72 deg F).

Tonight:
Often cloudy with a chance of occasional drizzle, especially over high ground where hill fog will develop. Where cloud breaks and clear spells occur patchy fog is likely to develop. Minimum temperature 13 deg C (55 deg F).

Sunday:
Generally cloudy start, with mist, patchy drizzle and hill fog. Through the day bright or sunny spells will develop, especially across eastern areas, where the highest temperatures will occur. Maximum temperature 22 deg C (72 deg F).

Outlook for Monday to Wednesday:
Rain soon clearing Monday, with sunshine and showers following. Tuesday and Wednesday showers or longer spells of rain, heavy at times, especially Tuesday. Feeling noticeably cooler throughout the period.
